# Telehealth

Telehealth policies continue to evolve. During the COVID-19 PHE, CMS announced a series of policy changes that broadened Medicare coverage and payment for telehealth services. The COVID-19 PHE ended on May 11, 2023, but the Consolidated Appropriations Act, 2023, extended many telehealth flexibilities through December 31, 2024, such as:

- FQHCs and RHCs can serve as a distant site provider for non-behavioral/mental telehealth services
- Medicare patients can receive telehealth services in their home
- There are no geographic restrictions for originating site for non-behavioral/mental telehealth services
- Some non-behavioral/mental telehealth services can be delivered using audio-only communication platforms
- An in-person visit within six months of an initial behavioral/mental telehealth service, and annually thereafter, is not required
- Telehealth services can be provided by all eligible Medicare providers.

To access a list of telehealth services that qualify for reimbursement, please visit the following link: <https://www.cms.gov/medicare/coverage/telehealth/list-services>. This page provides detailed information on which services are covered under Medicare, allowing you to verify eligibility and ensure proper billing.

If you are currently providing or will provide telehealth services, ensure to stay abreast the latest telehealth coverage and billing requirements by visiting <https://telehealth.hhs.gov/providers>

Telehealth visits will only be reimbursed and covered when federal, state and Medicare service and documentation standards for telehealth coverage are met.
